## DECORATE THE TABLE XMAS TREE

Step 1: Start with a flat, open napkin. Fold the top half down towards yourself.

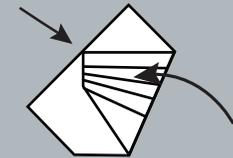

Step 2: Fold the right half over to the left.

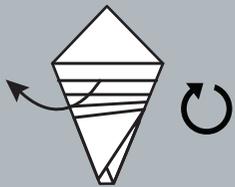

Step 3: Rotate the napkin so that the open edges are facing the bottom. Fold each layer up.

Step 4: Once all the layers have been folded, carefully place this side down on the table.

Step 5: Fold each side of the napkin in towards the middle. Ensure the top edges touch.

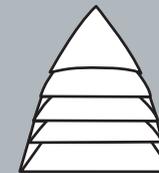

Step 6: With both sides folded, turn napkin over, rotate it 180°. The widest part will face you.

Step 7: Fold the points up & away from you. Start at the top.

Step 8: Tuck each layer in below the previous one. Do this with all the layers.

This is the complete tree. You can place a star or bow at the top for decoration.
