Dermatologist's Report

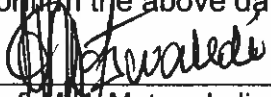

Products submitted by Company: Universal Paper & Plastics

Irritancy Patch Test date: 13th – 17th May 2024

| Product | Prod. Ref. code | Maximum value (mean visual score + SD) | Time point (hrs) | Conclusion Regarding Irritancy |
|--|-----------------|--|------------------|--------------------------------|
| Serviettes 2 ply Printed | PT2566 | 0.61 | 48 | Non-irritant |
| Positive Control Sodium lauryl sulphate 1% (SLS) | | 1.46 | 72 | Irritant Positive Control |
| Negative Control De-ionised water | | 0.65 | 48 | Non-irritant Negative Control |

We the undersigned confirm the above data to be accurate.

Dermatologist:

Prof. M.H. Motswaledi MB ChB (MEDUNSA)
M.MED (DERM) FCDERM (SA)

Study supervisor:

Prof. B. Summers BPharm (Nottingham UK)
M Sc(Med), (MEDUNSA)PhD

Date:

10 July, 2024

On the basis of this report the claim "**Dermatologist approved**" can be used for the products which have been signed off as above.

Products are referred to by the name submitted by the manufacturer. It is not within the scope of the report to comment individually on the appropriateness of the product names, or the claims inherent in those names

NOTES: (payment of the invoice indicates your company's acceptance of the following conditions):

1. Product/Products descriptions must take into account the conclusions regarding irritancy.
2. The above details are based on the product/products as submitted and the results obtained from a test panel of 20 healthy adult volunteers.
3. Should there be any changes to the product/products; the above conclusions no longer apply.
4. The results do not guarantee the product/products as non-irritant/low-irritant in all individuals. The results do not guarantee the product/products as non-sensitising.
5. The above signatories cannot be held responsible for any adverse reaction to the product, however caused.
