ABOUT US

DINU PROFESSIONAL IS MANUFACTURED BY UNIVERSAL PAPER & PLASTICS (UPP)

DINU Professional focuses on the wholesale, away from home, hygiene and HoReCa industries. This division caters for the specific business needs of the wholesale, hotel and hospitality industries. Our product range is fully customisable to address any unique requirements our clients might have and our offering consists of bulk customised serviettes, napkins, bathroom tissue and household towels.

Sister businesses Universal Paper Manufacturers and Universal Inks ensure that only the highest quality raw materials are used in the creation of Universal Paper & Plastics products.

Developing innovative everyday products that satisfy the creative mind as well as meet the hygienic needs of our customers. We strive to provide a leading range of products that will improve the state of hygiene across Southern Africa.

CERTIFIED & SAFE

At Universal Paper & Plastics, we pride ourselves on being market leaders when it comes to providing products that are safe for families to use. Responsibly sourced and certified paper is converted into serviettes, napkins, bathroom tissue and household towel.

Our tissue is made from 100% virgin fibre pulp which makes our products softer and more durable with higher absorbency rates.

The mark of responsible forestry

FSC® is an international non-profit organisation that promotes responsible forest management throughout the world. This certification (licence code FSC®-C114716) means that materials used in manufacturing our products have been responsibly sourced. By buying our products you help take care of the world's forests.

All our tissue products have been independently tested and officially classified as non-irritants, proving that they are entirely safe to use directly on your skin.

Our products have been tested and approved by the Independent German testing and certification institute to come into direct contact with foodstuffs as well as being safe to use on your skin.

As of June 2022, Universal Paper & Plastics (Bop) (Pty) Ltd. has been assessed and certified as meeting the requirements of ISO 9001:2015 for manufacturing, warehousing and distribution of tissue paper products. Visit www.iso.org for more information on the International Organization for Standardization.
